

PT2026 NMR Precision Teslameter

Reach new heights in magnetic field measurement

The Metrolab PT2026 sets a new standard for precision magnetometers. Leveraging 30 years of expertise building the world's gold standard magnetometers, it takes magnetic field measurement to new heights: measuring **higher fields** with **better resolution**.

The PT2026 offers unprecedented flexibility in the choice of parameters, interfacing and probe placement, as well as greatly improved tolerance of **inhomogeneous fields**. And with Ethernet & USB interfaces and LabVIEW software, it fits perfectly into **modern laboratory environments**.
